

# Family Math Fun!

## READ BOOKS!

You can read them together and count items on pages or pose simple addition and subtraction problems based on the illustrations. For example, “There are 7 fireflies in the jar and 2 flew away. How many are still in the jar?”

Ten for Dinner by Jo Ellen Bogart

Ten Black Dots by Donald Crews

Twenty is Too Many by Kate Duke

Feast for Ten by Cathryn Falwell

My Little Sister Ate One Hare by Bill Grossman

Splash! by Ann Jonas

One More Bunny: Adding from One to Ten by R. Walton

Ten Flashing Fireflies by Philemon Sturges

Deep in the Swamp by Donna Bateman

Math Appeal by Greg Tang

Ten Sly Piranhas by William Wise

Over in the Ocean: In a Coral Reef by Marianne Berkes

## Play games!

Play them over and over. Games with cards, games with dice, as well as the games you played today.

These games can be [found online](#).

- DOUBLE COMPARE
- 5 IN A ROW WITH 3 CARDS
- 5 IN A ROW SUBTRACTION WITH 3 CUBES
- TENS GO FISH
- COUNTERS IN A CUP
- HOW MANY AM I HIDING?
- MAKE 10
- DOT ADDITION
- PENNY JAR GAME

## TELL AND SOLVE STORY PROBLEMS!

Look for addition and subtraction situations at home. For example, say, “If we have 4 apples, 6 bananas, and 3 plums in the fruit bowl, how many pieces of fruit do we have?” or “If you have 12 pennies and you spend 5 pennies, how many do you have left?” “We have 8 people coming for dinner. We have only 6 chairs. How many more do we need?” Encourage your child to make up story problems for you too. You can give them an equation and see if they can create a story to go with it.
